Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The discussion focused over the fact that the references fail to teach the limitation of narrowing the bandwidth by setting the total gas pressure of the laser chamber to a specific value. Further, Applicant suggested faxing a proposed amendment. However, such informal communication was not received. In addition, the examiner suggests to include in the independent claim 1 the limitation recited in claim 3. Finally, the examiner pointed out that such changes to the claims would require further consideration and/or search..
